

Instructor Orientation

Introduction

Introduction Slide

Welcome to a brief introduction of the *Stronger as One* coalition. We hope that the information contained in this online instructor orientation module provides you with the assistance you need as you prepare to become a valued member of our MHFA Instructor team.

SLIDE 2

We come together to promote a culture of knowledge, compassion, and action related to mental health and wellbeing.

SLIDE 3

Stronger as One is a grant-funded coalition that offers mental health first-aid (MHFA) training to the public of Northern Arizona free of charge.

SLIDES 4 - 7

Stronger as One's primary objectives are to:

- Provide MHFA training for the citizens of Northern Arizona.
- Be a source of resources and support for those seeking mental wellbeing.
- Expand our coalition with other organizations in order to assist larger populations.

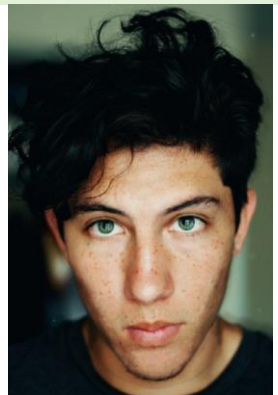

SLIDE 8

In October of 2018, the Executive Leadership Council (ELC) founded *Stronger as One* (SAO) in response to Northern Arizona's high rates of death by suicide when compared with state and national rates.

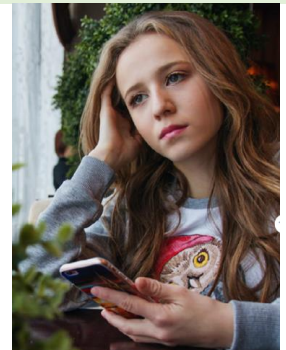

SLIDE 9

Stronger as One was founded to serve the Northern Arizona population, in general, but is making a concerted effort to help children and young adults.

SLIDE 10

This is due to the fact that more than half of the deaths by suicide in Northern Arizona are from people between 10 and 24 years of age.

SLIDE 11

Stronger as One also seeks to help those living in rural areas who might not have equal access to mental health services.

SLIDE 12

To address these issues, *Stronger as One* provides Mental Health First Aid training to Northern Arizona residents. There are approximately 70 instructors in this program from professionally diverse backgrounds, representing various parts of Northern Arizona. 50% of instructors are from Coconino County, 20% are from Mojave and Yavapai each, and 5% are from Navajo and Apache each.

SLIDE 13

In response to the changing needs of Mental Health First Aid course participants, *Stronger as One* now offers three modes of Mental Health First Aid instruction: In-Person, Virtual, and Blended courses.

Closing Slide

As always, we thank you for your commitment to helping others better understand the importance of mental health first aid awareness and are here to provide you with any additional support that you may need.

With gratitude, The *Stronger as One* Team
